DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipate by Callon et al (US 5,058,393). Callon et al discloses a display apparatus for refrigerating food and comprising: an indoor cooling coil mounted within an interior cooling column (14) and surrounded by a transparent casing (see column 7), a compressor (170) situated within a main body (12) and is made of a nontransparent material such as metal (see column 7). The transparent casing is inherently adapted to be luminous and consist of a clear color scheme; furthermore the surface is substantially smooth and flat.

Response to Arguments

Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.
